EXPERIENCE

Tech Mahindra

Sept 2023 – Present

Associate Software Engineer

Pune, IN

- Developed and maintained scalable, production-grade backend microservices using **Java, Spring Boot, Spring MVC, and Spring Data JPA**, enabling real-time telecom features, data sync, and complex system integrations.
- Built and tested 100+ RESTful APIs with **95%+ test coverage** using **JUnit5** and **Mockito**, ensuring end-to-end system reliability and robustness.
- Optimized exception handling, Oracle DB interactions, and API performance by **30%** using **JPA, JDBC, JPQL**, and custom SQL queries.
- Containerized services using **Docker** and orchestrated deployment through **Kubernetes** with **Helm** charts in automated CI/CD pipelines (**Azure DevOps**).
- Integrated and consumed **GraphQL APIs** for single-call aggregated data fetching, improving efficiency by **42%**.
- Implemented event-driven communication using **Apache Kafka** and **Spring Kafka**, leveraging topics and consumer groups for asynchronous inter-service processing.
- Integrated **Azure Key Vault** for secure secrets management and coordinated cross-functional delivery with frontend, QA, DevOps, and infra teams.
- Leveraged **GitHub Copilot** and **spec-driven development** practices to improve developer productivity through code generation, unit-test development, refactoring, and implementation of well-defined requirements.
- Remediated critical security vulnerabilities flagged by **SonarQube, Veracode, AppScan**.
- Resolved UAT and production issues during Agile sprints through rapid RCA, minimizing service disruption.

Magic EdTech

Feb 2023 – June 2023

Software Development Intern

Noida, IN

- Completed in-depth hands-on training in **Spring Boot, Hibernate, JDBC, and MySQL** through multiple web applications.
- Built CRUD-based REST APIs with **Spring Data JPA** and tested endpoints via **JUnit** and **Postman**.
- Collaborated with senior developers to improve application performance and implemented security best practices.

TECHNICAL SKILLS

Languages: Java 17, Java 21, JavaScript, HTML/CSS

Backend: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate, JDBC, REST APIs, GraphQL
Messaging Apache Kafka, Spring Kafka

Architecture: Microservices, Distributed Systems, System Design

Testing: JUnit 5, Mockito, Postman

Databases: Oracle DB, PostgreSQL, MySQL

Query Languages: SQL, JPQL, PL/SQL

DevOps & Tools: Git, Maven, Docker, Kubernetes, Helm, Jenkins, JFrog, Azure DevOps, CI/CD, Tomcat, JBoss

Cloud/Security: Azure, Azure Key Vault, OAuth 2.0, JWT, Authentication & Authorization, SonarQube, Veracode

AI-Assisted Development: GitHub Copilot, Spec-Driven Development, Prompt Engineering, Lightrun, AI-Assisted Debugging, RCA, Unit-Test Generation

CERTIFICATIONS

Oracle OCA, Java SE 8 Programmer (1Z0-808); AWS Certified Solutions Architect – Professional;

Microsoft Azure: AZ-900, AZ-204, AI-900; Google Cloud: Cloud Digital Leader, Associate Cloud Engineer

PROJECTS

Spring Boot E-Commerce App | *Java, Spring Boot, H2, Thymeleaf, Bootstrap*

GitHub

- Full-stack shopping platform with user authentication (**OAuth2**), cart management, product categories, and dynamic order tracking using Thymeleaf.

Order Management Service | *Java, Spring Boot, GraphQL, JPA, MySQL*

GitHub

- Built a Spring Boot schema-first **GraphQL API** for User-Order management using JPA & typed schema design.

EDUCATION

Raj Kumar Goel Institute of Technology

June 2023

Bachelor of Technology in Computer Science; AKTU; CGPA: 8.24

Ghaziabad, IN
